

Allegheny Cross-Cut Shredders

Get the highest level of destruction for your confidential information

The Allegheny Cross-cut Shredder is made specifically for companies that want to maximize the volume of paper they are processing while providing a significantly smaller, more secure shred size.

Allegheny's Cross-cut Shredders use individually stacked tool steel cutters with counter-rotating shafts to create a single pass cross-cut shred. Depending on the model, the end product can measure as small as 1/8" wide x 1" long. In addition to the increased security, the discharge from an Allegheny Cross-cut Shredder takes up less space in your facility due to its smaller shred size (as compared to a Strip-cut Shredder).

Why an Allegheny Cross-cut Shredder?

- Capacity of up to 350 sheets per pass
- Aggressive cutting assembly destroys a wide range of materials at highest level of destruction

Allegheny Cross-Cut Shredders

Specifications

16-75CX Series

Model	5 HP	7.5 HP	10 HP
Capacity*	30-40	45-55	55-65
Input Speed (feet/meter per min.)	55/17	66/20	75/23
Feed Opening (width)	16" / 406 mm feed opening 5" diameter steel crusher paddle		
Cutting Assembly (width)	16" / 406 mm	16" / 406 mm	16" / 406 mm
Shred Size	1/8" x 1"	1/8" x 1"	1/8" x 1"
Voltage	208/230/460 Volt AC, 3-phase, 60 cycle		
Dimensions (W x L x H)	45" x 50" x 46" 114cm x 127cm x 117cm		
Weight (machine/shipping)	935/1200 lbs 424/544 kg	935/1200 lbs 424/544 kg	935/1200 lbs 424/544 kg

20-350CX Series

Model	25 HP	30 HP	40 HP
Capacity*	200-350	200-350	200-350
Input Speed (feet/meters per min.)	47/14	50/15	65/20
Feed Opening (width)	20" / 508 mm feed opening		
Cutting Assembly (width)	20" / 508 mm wide;	20" / 508 mm wide;	20" / 508 mm wide;
	1 3/4" / 44 mm clearance	1 3/4" / 44 mm clearance	1 3/4" / 44 mm clearance
Shred Size	5/16" x 2 1/2"	5/16" x 2 1/2"	5/16" x 2 1/2"
Voltage	460 Volt AC, 3-phase, 60 cycle w/optional 208V/230V		
Dimensions (W x L x H)	76" x 93" x 67" 182" L w/ output conveyor		
Weight (machine /shipping)	6,000lbs (6,800 lbs) 2,722 (3,084 kg)	6,000lbs (6,800 lbs) 2,722 (3,084 kg)	6,000lbs (6,800 lbs) 2,722 (3,084 kg)

*Total sheets of 20 lb bond paper that can be shredded per pass. Actual capacity depends on available power supply. As we constantly improve our products, specifications are subject to change without notice.

Allegheny's legacy begins over 45 years ago, when John Wagner began building a shredder to out-perform the 7.5 Hp paper shredder that was the largest at the time. From those earliest days, Allegheny Shredders has been the icon of the shredding industry and is widely acknowledged as the world leader in information destruction.

There are 4 major ways to shred paper in high volume applications. At Allegheny, we build them all – **Strip-cut, Cross-cut, Particle-cut, and Grinders**. Our 45 plus years of experience give us the ability to manufacture a shredder that will meet your expectations – and far exceed them! So give us a call today and find out why Allegheny is the industry icon.
