- Auto-Feed System
- 3430-2572 Baler
- Vertical Baler
- One year parts and labor warranty with new Alleghey Strip Cut Shredder

Why Alleghey is the Industry Leader

Industrial Shredders come in all shapes and sizes. Why are Alleghey shredders considered the best in the world? Over 50 years ago, Alleghey founder John Wagner began breaking the barrier, building an industrial shredder to out-perform a powerful 7.5 horsepower shredder already on the market. In 1971, he went one step further and introduced the first heavy duty industrial shredder in the industry – a 15 horsepower beast! This trend continued into the present day, as Alleghey now manufactures 300 HP industrial shredders and shredding systems that can produce 20 tons of shredded paper per hour.
